

# Oxford University MATLAB Installation

To install MATLAB onto your computer, go to the **University of Oxford MATLAB Portal**:  
<https://uk.mathworks.com/academia/tah-portal/university-of-oxford-30972477.html>

The University of Oxford MATLAB Portal is a page on the MathWorks website that has been customized for Staff and Students at the University of Oxford.

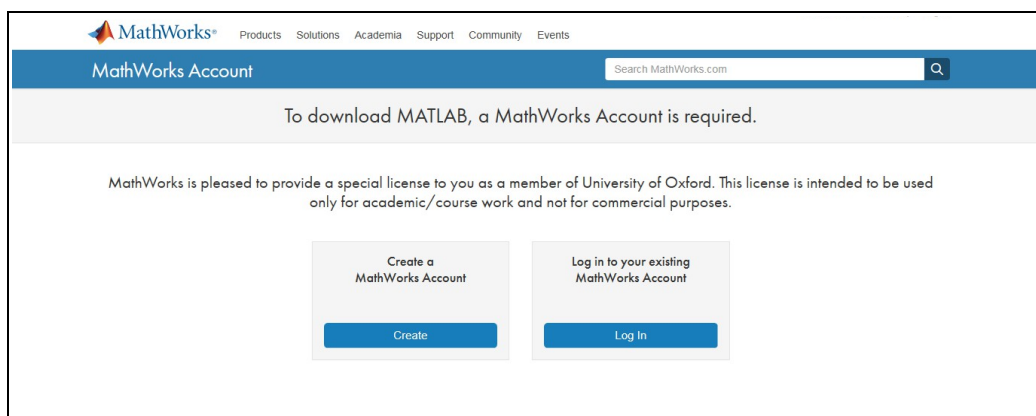

Then click on the blue button  
**Sign in to get started**  
as shown on the right.

Use your University of Oxford, Single Sign On Username and Password:

Then click on **Create a MathWorks account**:

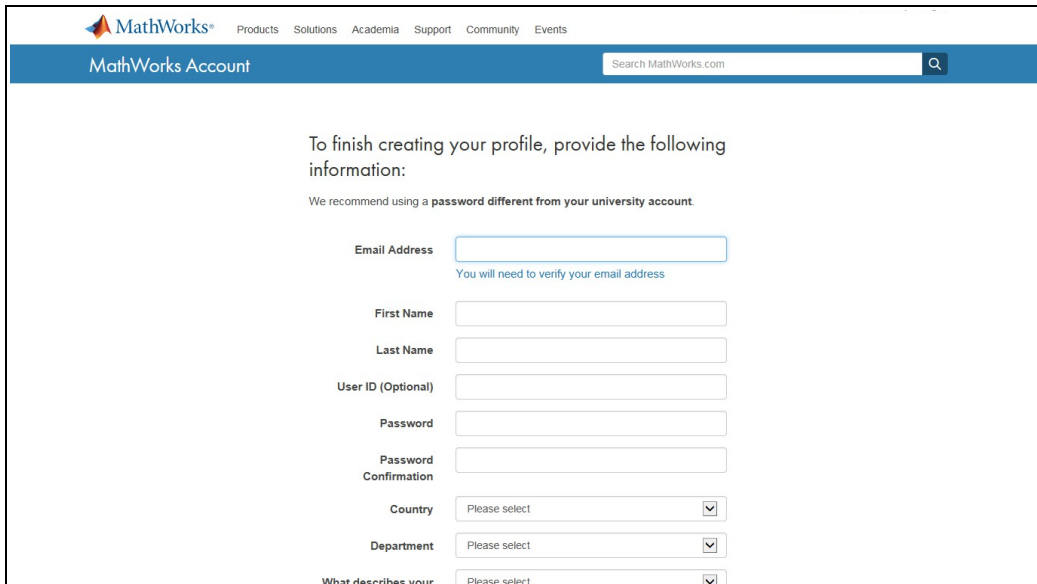

To register, you need to **use your normal Oxford University e-mail address.**

**The address must end with ox.ac.uk.** It should have the format similar to:

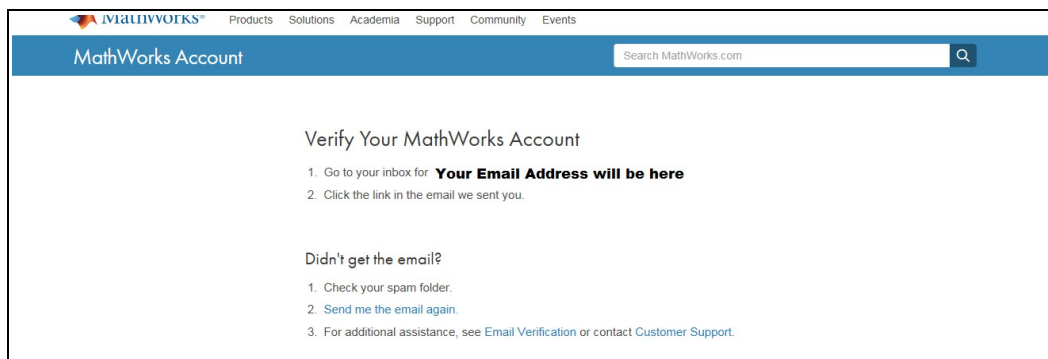

**firstname.lastname@college.ox.ac.uk**      **DO NOT USE sso@ox.ac.uk**

Then fill in the rest of the form:

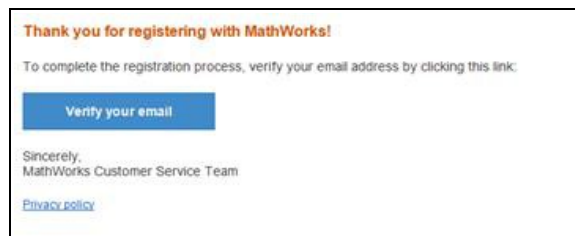

The screenshot shows the MathWorks Account registration page. At the top, there is a navigation bar with the MathWorks logo and links for Products, Solutions, Academia, Support, Community, and Events. Below the navigation bar is a search bar labeled "Search MathWorks.com". The main content area contains the following text: "To finish creating your profile, provide the following information:" followed by a recommendation: "We recommend using a password different from your university account." The form fields are: Email Address (with a note "You will need to verify your email address"), First Name, Last Name, User ID (Optional), Password, Password Confirmation, Country (dropdown menu), Department (dropdown menu), and "What describes your" (dropdown menu).

The system will then send you an e-mail:

The screenshot shows the MathWorks Account verification page. At the top, there is a navigation bar with the MathWorks logo and links for Products, Solutions, Academia, Support, Community, and Events. Below the navigation bar is a search bar labeled "Search MathWorks.com". The main content area contains the following text: "Verify Your MathWorks Account" followed by a list of instructions: "1. Go to your inbox for **Your Email Address will be here**" and "2. Click the link in the email we sent you." Below this is a section titled "Didn't get the email?" with a list of instructions: "1. Check your spam folder.", "2. [Send me the email again.](#)", and "3. For additional assistance, see [Email Verification](#) or contact [Customer Support](#)."

Click on the link in the e-mail:

The screenshot shows an email verification message. It starts with the text "Thank you for registering with MathWorks!" followed by "To complete the registration process, verify your email address by clicking this link:". Below this is a blue button labeled "Verify your email". At the bottom, it says "Sincerely, MathWorks Customer Service Team" and includes a link for "Privacy policy".

This will then take you directly to the MATLAB download page.

On the Download Page, **select a version of MATLAB to install:**

1. Mac users, see next page before selecting a release.
2. When you run the installer, you will be asked to select an **Installation Method**. Select **Log in** with a MathWorks Account.
3. Later, you will be asked enter an **e-mail address** and **Password**. Use the **e-mail address** and **Password** that you used to create your account on the MathWorks web site.
4. When asked to **Select a license**, Choose the license with the **Individual** Label. You may need your Computer Username. To find it, see [MathWorks instructions](#).
5. When ask to select the products, there are over 80 additional toolboxes available to install. If you are using a wireless connection, or standard broadband network connection at home, it will take many hours to download all the toolboxes. In these cases, select just MATLAB and the toolboxes you need. You can run the installer again later and add additional toolboxes.

If you have any problems, look at the MATLAB Information website for Oxford:

[www.eng.ox.ac.uk/matlab](http://www.eng.ox.ac.uk/matlab)

All users in the University get free access to extensive online training via

<https://matlabacademy.mathworks.com>

## Which release of MATLAB to download for my Mac?

If you are using macOS 11 or above, then you can download and install MATLAB release R2022b.

To find which version of OS you are using:

On the Mac, Click on the apple in the top far left.

Select **About this Mac**

If you have an older version of the Mac operating system, you will have to download an older release of MATLAB. See the table below.

mac Operating System		MATLAB Release to Use
Monterey	MacOS 12	R2022a or R2022b
Big Sur	MacOS 11	R2021a to R2022b
Catalina	macOS 10.15	R2020b
Mojave	macOS 10.14	R2020b
High Sierra	macOS 10.13.6	R2020a
High Sierra	macOS 10.13.x	R2019a
Sierra	macOS 10.12	R2019a
El Capitan	OS X 10.11	R2018a
Yosemite	OS X 10.10	R2017a
